PROJECTS

2020-2025

User statistics viewer

I developed a website for a web3 game that lets users see their game stats. (Currently not online)

Catering Management System

I developed a website for a local catering service in our area. (Currently not online)

Library System

I developed a website for a local catering service in our area. Link: <https://elibdemo.shop/>

Video Dictionary

I developed a mobile application that serves as a video dictionary for learning Cookery.

Online Module

I developed a mobile application that serves as a one stop shop for all learning materials of a subject. It includes pdf readers, video tutorials and a simple multiple choice game per topic.

Quiz game with voice commands

I developed a python script for a simple quiz game. Users can use their voices to answer the questions. (This project is for fun only).

Text-to-order system

I developed a website where businesses can register and implement a text-to-order system with product inventory for their businesses. (Currently not online)
